

ELGAR PRACTICAL GUIDES

THE UN HUMAN RIGHTS COUNCIL

A Practical Anatomy

Eric Tistounet

The book *A Practical Anatomy of the Human Rights Council* (Elgar) dissects every aspect of the United Nations (UN) Human Rights Council's (HRC) work and analyses the efficiency of, and interactions between, its mechanisms. Authored by Eric Tistounet, Chief of the HRC Branch at the Office of the UN High Commissioner for Human Rights (OHCHR), it provides unique practitioner insights into the complex decision-making processes of the Council alongside the core variations from its predecessor.

This book – set to become a key resource for NGOs, diplomats, UN officials and other participants in HRC proceedings, whilst also being valuable to human rights students and academics seeking to broaden their understanding of HRC operations – is the outcome of a six-month research fellowship carried out by the author at the Geneva Academy.

PRESENTATION OF THE BOOK

- **Eric Tistounet**, Chief of the Human Rights Council Branch, OHCHR

MODERATION

- **Felix Kirchmeier**, Executive Director, Geneva Human Rights Platform

PANELISTS

- **Salma El Hosseiny**, Programme Manager (Human Rights Council) International Service for Human Rights
